ViewTech VJ-4 Borescopes Newest Inspection Users

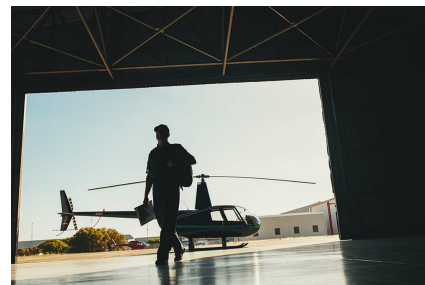

VJ-4 2.8mm x 1.0 meter

Aerospace & defense design / manufacturer of specialty products added a VJ-4 2.8mm video borescope for their deburr station. They currently use a VJ-4 3.9mm x 1.5 meter borescope in their inspection room.

VJ-4 3.9mm x 2.0 meter Dual Camera

A State Highway Patrol Aviation Division purchased a VJ-4 Dual Camera borescope to use when inspecting their fleet of three helicopters, five Cessnas, and a Beechcraft King Air 250.

VJ-4 6.0mm x 3.0 meter Far Focus

A high purity cleaning, sanitization, and testing services selected a VJ-4 Far Focus borescope to utilize during inspections of aluminum carbon wrapped pressure vessels.

Global Energy Show 2024

Energy Powering Opportunity

ViewTech is back from exhibiting at the Global Energy Show in Calgary. Our booth buzzed with activity as industry leaders, innovators, and trail blazers converged to explore the latest in remote visual inspection technology.

Thank you to all who visited our booth and contributed to making this year's Global Energy Show a resounding success. We look forward to returning to the 2025 Global Energy Show!

[AI-Powered Thermal Cameras Improve Leak Response And HSE Performance](#)

The energy industry is facing mounting demands for stronger environmental and safety standards. The climate has made reliable, round-the-clock leak monitoring even more critical for high-consequence facilities such as well sites, pump stations, terminals, and production platforms, which generally are remotely located, are near sensitive environments, and have limited staffing.
