

## Borescope News

### VJ-4 Borescope Report Builder Available Soon

A new, custom report building software will soon be available as a part of ViewTech's ODIN initiative (Operator Driven Inspections).

The ODIN Borescope Report Builder will allow you to automatically import all of your saved borescope inspection images to a MS Word document. From there, you can insert comments, flag images and even create hyperlinks to flagged images in order to simplify report navigation.

If you are interested in learning more about incorporating ODIN into your inspection process, [contact our borescope experts!](#) The ODIN Borescope Report Builder software is available free of charge to ViewTech customers or only \$1,299 for non-customers.

### Save The Dates: The Battery Show is Headed South in 2025

While ViewTech will be exhibiting at [The Battery Show North America in Detroit](#) next week at Booth #2733, there's a new Battery Show on our agenda! [The Battery Show South](#) will be taking place at the Georgia World Congress Center in Atlanta, Georgia from *April 16-17, 2025*.

If you are unable to visit Michigan in the Fall, mark your calendars to see us in Georgia at Booth #1155!
